**Subject:** bulletin - CMR implementation is bordering on being disastrous with huge delays in both air and sea freight

Apparently there is another customs meeting this afternoon to make a formal decision about what they are going to do to alleviate the current situation.  
on the news this morning a rep from P&O ports was saying that if they don't clear the containers that are building up on the wharf within 48 hours then they will refuse to unload vessels and will turn them away so something has to be done soon.
