

Oil prices per barrel have reached new peaks in recent months and this is reflected in the continued rise of fuel surcharges, levied by both air and ocean carriers. This years rise is attributed to demand and therefore should be expected to be maintained at these higher levels through the peak season.

Attached is a current guide to both air and ocean fuel surcharges as set by the carriers.

We shall endeavour to keep you abreast of fluctuations, though should an increase be passed by a carrier we shall have no choice but to bill at carrier cost at time of shipment.

If you have any queries on the above subject matter please contact our office direct.

## IMPORT AIRLINE SURCHARGES AS AT 20th November 2007
