Subject: bulletin : iceland volcanic activity causes all uk air space to be closed . there will be european flight disruptions

Vulcano eruption Iceland - changes in flight schedule

Dear Ladies and Gentelmen,

due to an ash cloud drifting from Iceland across Great Britain and further via Scandinavia air traffic is restricted in Northern Europe. Complete airspace over Great Britain is already closed. Up to now there are no massive impacts on Scandinavia.

Lufthansa flights in affected regions could be cancelled or delayed. North Atlantic flights of Lufthansa and respective Lufthansa Cargo freighter flights were not cancelled so far, however slight delays (max. 30 minutes) might occur
