**Subject:** bulletin : 3PL service now available with specific freight

I would like to advise we have now developed a sophisticated warehousing service in Melbourne and Sydney which effectively matches what we have been able to provide in China for the past two years. That is a complete warehousing service including full pick and pack service.

The system has been developed by our 3PL manager – Mr Craig Brunnen, who has had a lifetime of experience in warehousing and logistics.

Customer's stock levels, transactions and placing of orders is all available via our secure web environment. CCTV ensures full security at our clean facilities and 24 hour 7 day a week service ensures the best possible customer service.

Should you want to discuss the above further please let myself or Craig Brunnen know and we would be more than happy to call out and see you.

Craig Brunnen
